Re: EMSU #336- N  
Sec. 8, T21S, R36E

Gentlemen:

Your further testing of EMSU 336 after our bradenhead test appears to demonstrate that the pressures on the production/tubing and surface/intermediate annuli are not related and your request to minor this condition is acceptable with this office.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton  
Supervisor, District I
