14P.

1. *Pharmaceutical industry* – The pharmaceutical industry is the largest of the three industries, with sales of \$10.5 billion in 1997. It is the only industry that has not experienced a decline in sales since 1990. The industry is dominated by a few large firms, with the top five firms accounting for 40% of sales. The industry is characterized by high R&D expenditures, which are a result of the high costs of developing new drugs. The industry is also characterized by high barriers to entry, which are a result of the high costs of developing new drugs.

6. *How do you think the current situation in the world will change in the next 10 years?*
