# THEORY OF THE EARTH

## CHAPTER I. OF THE ORIGIN OF THE EARTH.

The first question which presents itself to the mind is, what was the cause of the origin of the earth? The answer to this question is, that the earth was created by the power of God, and that it was created out of nothing. The second question is, what was the state of the earth at the first? The answer to this question is, that the earth was in a state of confusion and darkness, and that it was covered with water.
