Midland, Texas 79701

Dear Mr. Bruno:

Thank you for submitting the requested forms for your C. W. Marshall No. 1 located in Unit P of Section 11, T-21-S, R-36-E. However, since you indicate on Form C-103 that the well is temporarily shut in waiting on pumping unit, an allowable will not be assigned at this time.

When the pumping unit has been installed, please submit another Form C-103 so indicating. You will also need to submit a 24 hour gas-oil ratio test (the present one is for only 8 hours) from which an allowable can be assigned.

Yours very truly,

OIL CONSERVATION COMMISSION

There is a small, dark, rectangular object, possibly a piece of wood or metal, lying on the ground. It is oriented horizontally and appears to be a component of a larger structure, possibly a door or a wall. The object is dark in color, possibly black or dark brown, and has a rough, textured surface. It is located in the lower right quadrant of the image, near the bottom edge. The background is a light, sandy or dusty surface, possibly a beach or a dry, open area. The overall scene is somewhat desolate and appears to be an outdoor setting.
