

MEXICO OIL CONSERVATION COMMISSION Santa Fe, New Mexico

MISCELLANEOUS REPORTS ON WELLS

Submit this report in triplicate to the Oil Conservation Commission or its proper agent within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of casing shut-off, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the Commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of report by checking below:

REPORT ON BEGINNING DRILLING OPERATIONS		REPORT ON REPAIRING WELL	
REPORT ON RESULT OF SHOOTING OR CHEMICAL TREATMENT OF WELL		REPORT ON PULLING OR OTHERWISE ALTERING CASING	
REPORT ON RESULT OF TEST OF CASING SHUT-OFF	X	REPORT ON DEEPENING WELL

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes the need for transparency and accountability in financial reporting.

2. The second part of the document outlines the various methods and techniques used to collect and analyze data. It includes a detailed description of the experimental procedures and the statistical tools employed to interpret the results.

3. The third part of the document presents the findings of the study. It includes a series of tables and graphs that illustrate the data collected during the experiment. The results show a clear trend in the data, which is discussed in detail.

4. The fourth part of the document discusses the implications of the findings. It explores the potential applications of the research and the limitations of the study. It also provides a brief overview of the conclusions drawn from the data.

5. The fifth part of the document provides a summary of the entire study. It includes a final conclusion and a list of references. The references are organized alphabetically and include a mix of books, articles, and online resources.

6. The sixth part of the document contains a list of appendices. These appendices provide additional information and data that are not included in the main body of the document. They are organized in a logical sequence and are easy to navigate.

7. The seventh part of the document is a glossary of terms. It defines the key terms and concepts used throughout the document. This section is essential for ensuring that all readers have a clear understanding of the terminology.

8. The eighth part of the document is a list of figures and tables. It provides a detailed description of each figure and table, including the data it contains and the conclusions it supports. This section is crucial for understanding the visual representation of the data.

9. The ninth part of the document is a list of references. It includes a comprehensive list of all the sources cited in the document. The references are organized in a way that makes it easy to find the information needed for further research.

10. The tenth part of the document is a list of appendices. These appendices provide additional information and data that are not included in the main body of the document. They are organized in a logical sequence and are easy to navigate.
