

OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

ILLEGIBLE

MISCELLANEOUS REPORTS ON WELLS

Submit this report in triplicate to the Oil Conservation Commission or its proper agent within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of casing shut off, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the Commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of report by checking below.

REPORT ON BEGINNING DRILLING OPERATIONS		REPORT ON REPAIRING WELL	
REPORT ON RESULT OF SHOOTING OR CHEMICAL TREATMENT OF WELL		REPORT ON PULLING OR OTHERWISE ALTERING CASING	
REPORT ON RESULT OF TEST OF CASING SHUT-OFF		REPORT ON DEEPENING WELL	
REPORT ON RESULT OF PLUGGING OF WELL

WORKING WITH THE FUTURE

1995-1996

21st Century Education

The 21st century is a time of rapid change and innovation. The world is becoming more interconnected, and the pace of technological advancement is accelerating. This presents both challenges and opportunities for education. We must prepare our students to thrive in a global, digital, and diverse world. This requires a fundamental shift in how we think about learning, teaching, and assessment. We must move from a traditional, teacher-centered model to a more student-centered, inquiry-based approach. We must embrace new technologies and pedagogies that foster creativity, critical thinking, and collaboration. We must ensure that all students have access to high-quality education and that our schools are safe, healthy, and supportive environments. We must work together to create a future where every child has the opportunity to reach their full potential.

Our schools must be places where students are engaged, motivated, and challenged. We must provide them with the skills and knowledge they need to succeed in the 21st century. We must foster a culture of learning and innovation, where students are encouraged to take risks, ask questions, and explore new ideas. We must ensure that our curriculum is relevant, rigorous, and reflective of the world we live in. We must work to close the achievement gap and ensure that all students have the opportunity to succeed.

We must also focus on the social and emotional well-being of our students. We must provide them with the support and resources they need to develop strong character traits and life skills. We must create a safe and supportive environment where students feel valued and respected. We must work to address the needs of all students, including those who are at risk of dropping out or experiencing other challenges. We must ensure that our schools are places where every student can thrive and reach their full potential. We must work together to create a future where every child has the opportunity to succeed.

~~CONFIDENTIAL~~

The future is within our grasp. We have the power to shape the world we live in. We must embrace change and innovation, and we must work together to create a better future for all. We must ensure that our schools are places where every student can thrive and reach their full potential. We must work to close the achievement gap and ensure that all students have the opportunity to succeed. We must foster a culture of learning and innovation, where students are encouraged to take risks, ask questions, and explore new ideas. We must ensure that our curriculum is relevant, rigorous, and reflective of the world we live in. We must work to address the needs of all students, including those who are at risk of dropping out or experiencing other challenges. We must ensure that our schools are places where every student can thrive and reach their full potential. We must work together to create a future where every child has the opportunity to succeed.
