## FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

On September 1, 1945, our application was submitted and subsequently approved to transfer a portion of the allowable production from Well No. 3 to Wells 2 and 4. The reason for this transfer was to conserve the amount of gas produced from Well No. 3. Recently we have been able to obtain satisfactory production and GOR from Well No. 3, and desire to cancel this transfer of allowable. The limiting ratio in this pool is 6000 and on recent GOR test well No. 3 tested 4507 cu ft per barrel oil produced. GOR report Form C-116 will be submitted to the Commission and to the Production Office.
