Roswell, New Mexico
(Place)

August 19, 1963
(Date)

Gentlemen:

Following is a Notice of Intention to do certain work as described below at the.....

The Atlantic Refining Company O. L. Coleman Well No. 1 in C
(Company or Operator) (Unit)
NE 1/4 NW 1/4 of Sec. 17, T. 21-S, R. 36-E, NMPM, Eunice Monument Pool
(40-acre Subdivision)
Lea County.

FULL DETAILS OF PROPOSED PLAN OF WORK
(FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS)

This well, presently a dual completion (conventional), is producing Yates gas through the casing annulus and Grayburg-San Andres oil through 2-1/2" tubing. A Baker 415 DAB packer is set at 3689.53'. A GOT side door choke is located at 3654.59'. Drawing of present in-hole equipment attached. We propose to set a PSI plug in packer, thereby shutting off lower zone (oil), open SDC and produce the Yates gas from the tubing. We are presently drilling a replacement well for the Grayburg-San Andres oil well. We are proposing to convert this well to a single zone gas producer by this procedure.
