New Mexico Oil & Gas Conservation Commission
P.O. Box 2045
Hobbs, New Mexico

Attention District Engineer

Subject: Dual Completion, Tide Water
#3 Coleman, Eunice Pool,
Lea County, New Mexico

Dear Sir:

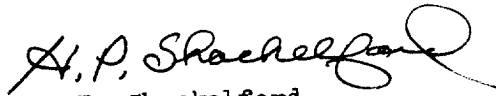

Enclosed please find two copies of a Lane-Wells Radioactivity log that was run recently on the subject well.

Dual completion operations have commenced on the well; permission was authorized by the New Mexico Oil & Gas Conservation Commission after public hearing, Case 375.

In compliance with the proposals set forth in the application, we have shown on the enclosed logs "the vertical footage location of the proposed perforations". We propose to open the zones shown for gas production through the tubing-casing annulus.

Yours very truly,

TIDE WATER ASSOCIATED OIL COMPANY

H.P. Shackelford
