Place

Date

OIL CONSERVATION COMMISSION,

Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the

Repollo Oil Company - State # 176

Well No. 1-2-4-5-6-7

Company or Operator

Lease

of Sec. 19, T. 21S, R. 36E, N. M. P. M., Eunice Field,
Lea County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

This request is to gain permission to centralize more than five wells into one tank battery on the above lease.

Wells # 2, 4, 5 and 6 on this lease are now making water and is necessary to treat. I have a treating plant serving wells 4, 5 and 6. The oil from well number 2 has begun to cut so badly it is going to be necessary to install another treating plant for this one well. To save the cost of treating plant, installation and operation the life of the well, it is my desire to connect well # 2 into the battery with wells # 1, 4, 5, 6 and 7. As stated above, I already have a treating plant at this battery, also, 5- 500 Barrel tanks. Well # 3 on this lease is a gas well and is used to flow wells # 2 and 6.

This lease is drilled up, there will be no further addition of wells to the battery.

This request is in accord with my letter to you December 20, 1939, at which time I attached a plat of the lease.

Approved _____, 19 _____
