R.F.Montgomery
Proration Manager
Oil Conservation Commission
Box 2045
Hobbs, New Mexico

Dear Mr. Montgomery:

Your letter of August 18, 1959 requested a packer leakage test be run in our Meredith No. 1. This letter is to confirm our telephone conversation of August 21, 1959, that no packer leakage test is necessary as the well is producing oil from the casing and gas from the 9 5/8" x 7" casing annulus. Please find attached Schematic drawing that illustrates the above situation.

Sincerely Yours,

F.A. Wise
District Superintendent
