

NEW MEXICO OIL CONSERVATION COMMISSION

SANTA FE, NEW MEXICO

MISCELLANEOUS NOTICES

Submit this notice in triplicate to the Oil Conservation Commission or its proper agent before the work specified begins. A copy will be returned to the sender on which will be given the approval, with any modifications considered advisable, or the rejection by the Commission or agent, of the plan submitted. The plan as approved should be followed, and work should not begin until approval is obtained. See additional instructions in the Rules and Regulations of the Commission.

Place

Date

OIL CONSERVATION COMMISSION,
Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the _____

Continental Oil Company State C-20 Well No. 5 in SW/4
Company or Operator Lease
of Sec. 20, T. 21-S, R. 36-E, N. M. P. M., Denice Monument (Denice) Field.
Lea County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

Subject well was completed June 13, 1935 at total depth of 3932' for initial potential of 150 barrels oil per hour with 22,240 MCF gas daily through 5-1/2" casing, flowing. In December, 1947 deepened from 3932' to 4015'. Ran radio-activity survey and set 260' of 4" OD Securaloy liner at 4015'. Perforated liner by intervals from 4012' to 3938'. Tested 360 barrels oil, no water, by gas lift after workover.

At the present time subject well is producing 100% water, therefore your permission is requested to plug the well back and test the pay zones between 3635' and 3923'. If commercial oil production is not found at that depth, your permission is requested to plug the well back and test the Yates sand for possible gas production.

ILLEGIBLE

JUL 28 1949
