Gentlemen:

Following is a Notice of Intention to do certain work as described below at the State C-20

Continental Oil Company
(Company or Operator)Well No. 6 in C
(Unit)

Lease

NE 1/4 NW 1/4 of Sec. 20, T. 21, R. 36, NMPM, Blount Pool
(40-acre Subdivision)

Lea County.

FULL DETAILS OF PROPOSED PLAN OF WORK
(FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS)

In order to stimulate and increase daily oil production it is our intention to selectively acidize the production zone, using gel block to isolate the known highly permeable water zone and a two-electrode pilot survey to insure that injected acid is not going into the water zone, using the following method. Spurt a gel block from TD to approximately 3880'. Run two-electrode wire line pilot and run tubing with packer and treat open hole interval from 3807-3880' with approximately 3,000 gals. acid. Use two-electrode pilot to insure that acid does not re-enter blocked section of hole. Pull tubing and packer, rerun tubing, rods and pump.

Permission is hereby requested to perform the above work, a subsequent report will be submitted upon completion of this work.
