Mr. F.J. Vesely
State Oil & Gas Inspector
Carlsbad, New Mexico.

Dear Sir:-

I wish to obtain permission to save bradenhead gas on
Arnott-Ramsay 'C' Well #1, which is located in the SW/4 of SW/4 of
Section 21-21-36. This for the purpose of operating the lease.

We propose to run 25 sax on the 5-1/2" Casing.

Please advise if this procedure is alright.

Yours truly,

C.C. Cummings
