

NE. MEXICO OIL CONSERVATION CO. MISSION

Santa Fe, New Mexico

MISCELLANEOUS NOTICES

Submit this notice in triplicate to the Oil Commission or its proper agent before the work specified is to begin. A copy will be returned to the sender on which will be given the approval, with any modifications considered advisable, or the rejection by the Commissioner or agent, of the plan submitted. The plan as approved should be followed, and work should not begin until approval is obtained. See additional instructions in the Rules and Regulations of the Commission.

Date

OIL CONSERVATION COMMISSION,

Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the Gulf Oil Corporation -
Gypsy Prodn. Division Arnott-Ramsay State "C" Well No. 9 in NE NE
 Company or Operator Lease
 of Sec. 21, T. 21S, R. 36E, N. M. P. M., Eunice Field,
Lea County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

Authority is requested to produce six wells, Nos. 3,4,5,8,9 and 12, through a central treating plant into a centralized tank battery on Arnott-Ramsay State "C" lease, Eunice Pool. At present time there are five wells producing into this common battery. Well #9 recently started cutting, therefore it will now be necessary to treat its production. In order to eliminate a substantial expenditure to install a complete treating plant for this one well, authority is asked to produce it through the central plant along with the other five wells. All wells on the lease are on the same basic property. There are no divisions of royalty. Separators and headers are so arranged that tests can be made as desired.
