

5. Attached diagramatic sketch of proposed dual completion equipment showing:

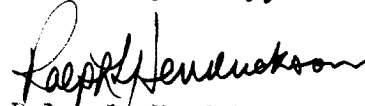

- (a) Formations involved.
- (b) Perforations.
- (c) Approximate location of packer or packers.
- (d) Other information pertinent to dual completion.

6. Statement of Intention:

The subject well is presently producing from the Grayburg formation in the Eunice Field from intervals 3807' to 3908'. It is planned to perforate various intervals opposite the Yates, Seven Rivers and Queen formations from 2900' to 3700' and well ultimately completed as a dual gas-oil in the Lumont Gas Pool and Eunice Oil Pool respectively.

7. All operators who offset the lease containing location of subject well have been furnished a copy of this application by registered mail. Attached is mailing list of all operators notified.

Yours very truly,

  
Ralph L. Hendrickson  
Field Superintendent

CKD/dw

State of New Mexico  
County of Lea

On this 14th day of June, 1955, before me personally appeared Ralph L. Hendrickson, to me known to be the person who executed the foregoing letter and states that the foregoing statements are true to the best of his knowledge and belief.

IN WITNESS WHEREOF: I have hereunto set my hand and affixed my seal on this the day and year first above written.

  
Notary Public for State of  
New Mexico, County of Lea

My Commission Expires August 8, 1956
