

NEW MEXICO OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

MISCELLANEOUS NOTICES

Submit this notice in triplicate to the Oil Conservation Commission or its proper agent before the work specified is to begin. A copy will be returned to the sender on which will be given the approval, with any modifications considered advisable, or the rejection by the Commission or agent, of the plan submitted. The plan as approved should be followed, and work should not begin until approval is obtained. See additional instructions in the Rules and Regulations of the Commission.

Place

Date

OIL CONSERVATION COMMISSION,
Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the

Stanolind Oil and Gas Company State "J" Well No. 1 in SW/4 NW/4
Company or Operator Lease
of Sec. 22, T. 21-S, R. 36E, N. M. P. M., Eunice Field,
Lee County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

In a further effort to stimulate production and to decrease water production, we propose to squeeze cement present 7" OD casing perforations 2787 to 3800 (ground measurements). Then test and drill out plug to 3890 (DF). Oil and water production since last reported has not appreciably increased and as we are of the opinion that water is now being produced through present 7" casing perforation, we believe the above procedure will increase our oil production and decrease the water production.

Approved 6 - 1, 19 44
