Gentlemen:

Following is a notice of intention to do certain work as described below at the

Stanolind Oil & Gas Company State "J" Well No. 1 in SW/4 NW/4
Company or Operator Lease
of Sec. 22, T. 21-S, R. 36-E, N. M. P. M., Eunice Field,

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

We propose to plug back the above well from the original total depth of 3900' (DF) to approximately 3870' (DF) in an attempt to exclude bottom hole water by using Halliburton's dump bailer and cement. In event this attempt is unsuccessful in shutting off the water, we propose to plug back into the 7" OD casing, which was originally set at 3816' (DF) with 400 sacks of cement and later perforated from 3797' to 3810' with 40 shots. On completion of this work, the results will be submitted in proper form.
