

NEW MEXICO OIL CONSERVATION COMMISSION  
SANTA FE, NEW MEXICO

6-1-56

PACKER-SETTING AFFIDAVIT  
(Dual Completions)

STATE OF New Mexico )  
County of Lea ) ss

J.H. Noss, being first duly sworn according to law, upon his oath deposes and says:

That he is of lawful age and has full knowledge of the facts herein below set out.

That he is employed by \_\_\_\_\_ in the capacity of Production Foreman and as such is its authorized agent.

That on February 11, 1958, he personally supervised the setting of a 5 1/2" Baker Model B Production Packer in Gulf Oil Corporation's (Make and Type of Packer) (Operator)

Harry Leonard N.C.T. "A" Well No. 7, located in Unit (lease) Letter A, Section 22, Township 21, Range 36, NMPM, Lea County, New Mexico.

That said packer was set at a subsurface depth of 3690 feet, said depth measurement having been furnished by Western Company.

That the purpose of setting this packer was to effect a seal in the annular space between the two strings of pipe where the packer was set so as to prevent the commingling, within the well-bore, of fluids produced from a stratum below the packer with fluids produced from a stratum above the packer. That this packer was properly set and that it did, when set, effectively and absolutely seal off the annular space between the two strings of pipe where it was set in such manner as that it prevented any movement of fluids across the packer.
