Mr. J. D. Ramey
N. M. O. C. C.
P. O. Box 2088
Santa Fe, NM 87501

Dear Sir:

Gulf Oil Corporation is the operator of a 320-acre non-standard gas proration unit consisting of the N/2 of Section 25, Township 21 South, Range 36 East, of Lea County, New Mexico, in the Eumont Gas pool under Order R-659. The unit's well is Gulf's W. A. Ramsay (NCT-B) No. 2, located 1980' from the north and 660' from the west lines of Section 25.

Gulf Oil Corporation requests your administrative approval for an amendment to Order R-659 to simultaneously dedicate Eumont Gas production from W. A. Ramsay (NCT-B) No. 2 and W. A. Ramsay (NCT-B) No. 1, located 1980' FNL and 1980' FWL of Section 25.

In support of this application, the following facts are submitted:

1. W. A. Ramsay (NCT-B) No. 2 is a marginal Eumont Gas well and is under-produced approximately 82,451 MCF through October 1976.
2. W. A. Ramsay (NCT-B) No. 1 is presently temporarily abandoned in the Arrowhead zone. Plans have been made to abandon the Arrowhead and recomplete in Eumont Gas. This well should be capable of producing 1200 MCFGPD upon completion.
3. The attached plat shows the 320-acre non-standard proration unit and subject wells outlined in red.
4. All offset operators have been furnished a copy of this application.

Your early consideration will be appreciated.

Yours very truly,

C. D. Borland
