

Administrative Order NSP-1701-A(L)(SD)

Exxon Corporation

November 25, 1996

Page 2

It is our understanding that such reduction of acreage is necessary due to the re-classification of the New Mexico "G" State Well No. 16 in Unit "C" as a Eumont oil completion.

The Division further understands that the Eumont zone within the New Mexico "G" State Well Nos. 4 and 6 are currently abandoned and are to be withdrawn from consideration for any Eumont GPU's in said Section 26.

By authority granted me under the provisions of Rule 2(d) of the "*General Rules for the Prorated Gas Pools of New Mexico/Special Rules and Regulations for the Eumont Gas Pool*", as promulgated by Division Order No. R-8170, as amended, the following described 560-acre non-standard gas spacing and proration unit is hereby approved:

LEA COUNTY, NEW MEXICO

TOWNSHIP 21 SOUTH, RANGE 36 EAST, NMPM

Section 26: NE/4, W/2 NW/4, SE/4 NW/4, SW/4, W/2 SE/4, and SE/4 SE/4

Authorization for the remaining New Mexico "G" State Well Nos. 2, 10, and 11, as unorthodox gas well location in the Eumont Gas Pool approved by said Order NSP-1701(SD)(L), are hereby continued under the provisions of this order; however, all other provisions of said order shall be placed in abeyance until further notice. Also, Exxon is hereby permitted to produce the allowable assigned the subject 560-acre GPU, in accordance with Rule 5 of said special pool rules based upon a unit size of 560 acres, from all three wells in any proportion.

Sincerely,

William J. LeMay
Director
