### DETAILED ACCOUNT OF WORK DONE AND RESULTS OBTAINED

Drilled plug and tested cement job by applying 1200# pressure to casing. Pipe tested OK and then started bailing hole to bottom. On account of imminent weather freezing water lines etc., could bail hole to 2300' only. However, water stood at 2300 feet for 36 hours, waiting for State representative to check same, indicating that a perfect water shut off had been obtained.
