

OIL CONSERVATION COMMISSION

P. O. BOX 871

SANTA FE, NEW MEXICO

January 10, 1956

**The Texas Company
Mr. Herbert Wade
P. O. Box 1720
Fort Worth, Texas**

Dear Sir:

Mr. Porter has called to my attention the fact that the allowable on your company's Rector Well No. 4, in the Eumont Gas Pool, was set at 40 acres on the January proration schedule. Order R-734 increased the proration unit size assigned to this well to 120 acres.

We will have Mr. Porter issue a supplement to the January proration schedule, increasing the allowable effective January 1, and the correct allowable will be noted in the February proration schedule.

Very truly yours,

**W. B. Macey
Secretary-Director**
