Re: Plugging J. K. Rector #2
SE NE Sec. 31-21-36

Gentlemen:

We are still unable to approve Form C-103 dated February 1, 1954 which we received in this office August 30, 1954, in response to our letter of August 13th, due to the fact that our Oil and Gas Inspector, Mr. L. A. Hanson, finds that conditions at the well site are not as described on your Form C-103. Upon his last visit to the well location on October 26th, Mr. Hanson found that the marker had not been set, the pits had not been filled or levelled, nor had the location been cleaned up. We will appreciate it, therefore, if you will send a representative to this office to discuss this matter further, so that we may be able to consider the approval of your forms.

Yours very truly,

OIL CONSERVATION COMMISSION

A. L. Porter, Jr.
Proration Manager
