Re: Reports J. K. Rector #2
Sec. 31-21S-36E

Gentlemen:

In reply to your letter of August 6, a check of the New Mexico Oil Scouts report shows that you set 300' of 9-5/8" casing with 200 sacks of cement, and 8-5/8" casing was set at 3766 with 300 sacks of cement. We do not have either of these reports in our file. If you will file Form C-103 for each string of casing set, with the addition of your letter of information, your file will be up to date.

Please give this matter your attention.

Yours very truly,

OIL CONSERVATION COMMISSION

A. L. Porter, Jr.
Proration Manager
