PULL OR ALTER CASING <input type="checkbox"/>	OTHER <input type="checkbox"/>	CASING TEST AND CEMENT JOB <input type="checkbox"/>	OTHER status of proposed workover <input checked="" type="checkbox"/>

17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Lines have been laid to heater-treater, storage tanks and pipelines. Workover unit anchors have been installed and pipe rack materials put on location.

Present status of well: shut-in while operator assembles further supplies for completion - some materials being bought piecemeal because of scarcity.

Future plans for well: as soon as difficult-to-get supplies and well workover equipment become available and can be assembled, operator will complete the well by perforating and treating possible pay sections in the 7-Rivers and Yates formations.

Estimated date of beginning final work on this well is 10/1/74, although operator hopes to finish getting equipment assembled and to hire a workover unit before then.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
