

NEW MEXICO OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

MISCELLANEOUS NOTICES

Submit this notice in triplicate to the Oil Conservation Commission or its proper agent before the work specified is to begin. A copy will be returned to the sender on which will be given the approval, with any modifications considered advisable, or the rejection by the Commission or agent, of the plan submitted. The plan as approved should be followed, and work should not begin until approval is obtained. See additional instructions in the Rules and Regulations of the Commission.

Place

Date

OIL CONSERVATION COMMISSION,
Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the

Gulf Oil Corporation - GYPROD J. F. Janda "B" Well No. 1 in NW SE
Company or Operator Lease
of Sec. 32, T. 21S, R. 36E, N. M. P. M., Eunice Field,
Lea County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

Since this well has become non-commercial due to its increased production of water and reduced capacity for producing oil, we propose to plug and abandon. We intend to place the Baker cement retainer at 3650 feet, or 127 feet above the casing shoe and fill the exposed hole and that part of the casing with cement and dump 40 feet of cement on top of the plug. We propose to shoot the 5 1/2 inch pipe at 2830 feet, some 300 feet above the base of the salt and pull approximately 2800 feet of the pipe. The remaining part of the hole will be filled with mud and the surface plugged with a 4 inch pipe full of cement and extending 4 feet above the surface. The 1572 feet of 7 5/8 inch and 380 feet of 10 3/4 inch pipe will be left in the hole.

Approved _____, 19____
except as follows:

APPROVAL CONDITIONED UPON
COMPLIANCE WITH REQUIREMENTS
OF OPC-WPB.

OIL CONSERVATION COMMISSION,
