Gentlemen:

Re: C. E. Long Shell-State #1,
SE/4 SW/4, Sec. 32, T-21-S,
R-36-E, Lea County, New Mexico

Your Administrative Order NFO-587 dated January 3, 1967, applies to the subject well, then producing from the South Eunice Pool. This well has now been plugged back and has oil and gas production prorated in the Jalmat Pool.

The subject well is now being tested by two different casinghead gas purchasers for possible contract and connection. Therefore, I respectfully request that you issue a No Flare Exception Order covering gas produced from the Jalmat Pool in this well pending completion of the tests now being conducted and, possibly, the making of a casinghead gas connection for sales.

Very truly yours,

C. E. Long
