Dear Sir:

Reference is made to your letter of November 22, 1966, to our Mr. Glyn Mitchell at Odessa, Texas, in regard to connecting the casinghead gas from your C. E. Long No. 1 Shell State well located in the SE/4 SW/4 Section 32, Township 21 South, Range 36 East, Lea County, New Mexico.

Due to the small volume of gas available for sale from this well, we cannot justify the expenditure necessary to contract and connect such gas into our Eunice gathering system. If you should develop additional gas sometime in the future, we will be glad to again take a look at the possibilities of connecting this well.

Yours very truly,

James P. Kirk
Director of Contracts
