Re: Application for administrative  
approval for Dual Completion,  
Blankenship Oil Company No. 2  
Pech-State well, Sec 32,  
T-21-S, R-36-E, Lea Co., N. M.

Gentlemen:

The attached application is submitted as a replacement for and to correct mistakes in my original application dated October 13, 1958. It conforms to the suggested changes set out in an October 16, 1958 letter from Mr. E. J. Fischer to me.

With reference to the subject application I forward herewith the following enclosures executed as directed on the application form:

- 1.) Original and one copy of the Conservation Commission form titled "Application For Dual Completion" 7-3-58.
- 2.) Two copies of appropriate diagrammatic sketch.
- 3.) Two copies of appropriate location plat.
- 4.) Evidence that all offset operators have been furnished copies of application for dual completion.
- 5.) Two electrical logs of the subject proposed dual completion well.

Accompanying this letter and the application for dual completion is an application for approval of non-standard gas proration unit.

Please let me know if there is further action necessary on my part before your ruling can be made on this application.

Very truly yours,

  
C. E. Long FOR: Blankenship  
Oil Company
