Gentlemen:

Attached is a copy of an application to the New Mexico Oil Conservation Commission for permission to dually complete as a gas and oil producer the Blankenship Oil Company No. 2 Pech-State well.

This application is submitted as a replacement for and to correct mistakes in my application dated October 14, 1958, for dual completion of the subject well. It conforms to the suggested changes set out in an October 16, 1958 letter from Mr. E. J. Fischer, District Engineer of the Conservation Commission in Santa Fe.

The eighty acre non-standard gas proration unit requested is described as the N/2 of the SW/4 of Section 32, T-21-S, R-36-E, Lea County, New Mexico.

The application form, the required diagrammatic sketch and the well and lease location plat are forwarded to you as offset operators in compliance with Commission rules and regulations.

Very truly yours,

CEL/me
