Re: Over-produced Casinghead Gas
Harry Leonard NCT-C Well #5-C 36-21-36 -- Arrowhead Grayburg Pool
Eunice King #17-C 28-21-37-- Paddock Pool

Gentlemen:

As requested in your June 10th letter you are hereby authorized to produce the above-referenced wells at approximately 60% of their monthly casinghead gas allowable until the over production is made up.

Very truly yours,

OIL CONSERVATION DIVISION

Re: Casinghead Gas

New Mexico Oil Conservation Division
Attn: Evelyn Downs
P. O. Box 1980
Hobbs, New Mexico 88240

Dear Mrs. Downs:

We have received our "Cumulative Casinghead Gas Over Production" report for the month ending March, 1991.

The Eunice Area has two wells on the report. The Harry Leonard NCT-C #5C, Arrowhead Grayburg, and the Eunice King #17C, Paddock.

As we have reduced the over production on these wells, 2,414 MCF on the Harry Leonard NCT-C #5C and 2334 MCF on the Eunice King #17C, we would like to request that we be allowed to continue to produce these wells at the reduced rate.

Very truly yours,

A handwritten signature in cursive script that reads "E L Allen".
