

## NEW MEXICO OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

## MISCELLANEOUS NOTICES

Submit this notice in triplicate to the Oil Conservation Commission or its proper agent before the work specified is to begin. A copy will be returned to the sender on which will be given the approval, with any modifications considered advisable, or the rejection by the Commission or agent, of the plan submitted. The plan as approved should be followed, and work should not begin until approval is obtained. See additional instructions in the Rules and Regulations of the Commission.

Date

OIL CONSERVATION COMMISSION,  
Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the

Gulf Oil Corp - Gypsy Prod Div - H. Leonard "C"  
Company or Operator Lease

Well No. 6 in

of Sec. 36, T. 21, R. 36, N. M. P. M., Arrowhead Field,  
Lea County.

## FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

At the present time wells No. 1 - 5 inclusive are produced into a centralized tank battery.

Permission is requested to produce well No. 6, which is being completed, into the battery with the other 5 wells on this lease. We have sufficient facilities and storage to take care of any testing which is to be done for individual wells. Separators and headers are so located that these tests can be made. All wells are located on the same basic property.

Approved \_\_\_\_\_, 19\_\_\_\_  
except as follows:

Gulf Oil Corp - Gypsy Prod Div.  
Company or Operator

THEORY OF THE EARTH

CHAPTER I. OF THE ORIGIN OF THE EARTH.

THE first question which presents itself to the mind, is, what was the cause of the origin of the earth? and the answer is, that it was the result of a process of condensation, which took place in the æther, or in the space between the stars.

It is generally supposed, that the earth was formed out of a mass of gas, which was condensed into a solid state, by the action of heat and pressure.

It is also generally supposed, that the earth was formed out of a mass of gas, which was condensed into a solid state, by the action of heat and pressure.

It is also generally supposed, that the earth was formed out of a mass of gas, which was condensed into a solid state, by the action of heat and pressure.
