PACKER PLACEMENT AFFIDAVIT
(Well Completions)STATE OF NEW MEXICOCounty of SANTA FE

R. A. Steadman, being first duly sworn according to law, upon his oath deposes and says:

That he is of lawful age and has full knowledge of the facts herein before set out.

That he is employed by TEWACO Inc. in the capacity of Asst. Production Foreman and as such is its authorized agent.

That on March 27, 19 62, he personally supervised the setting of a Baker Model "D" in TEWACO Inc.
(Name and Type of Packer) (Operator)

J. G. Hatlock Well No. 1, located in Unit
(lease)
Lotter T, Section 3, Township 21-S, Range 37-E, NMPM,
Lea County, New Mexico.

That said packer was set at a subsurface depth of 5855 feet, said depth measurement having been furnished by Walen Wire Line.

That the purpose of setting this packer was to effect a seal in the annular space between the two strings of pipe where the packer was set so as to prevent the comingling, within the well-bore, of fluids produced from a stratum below the packer with fluids produced from a stratum above the packer. That this packer was properly set and that it did, when set, effectively and absolutely seal off the annular space between the two strings of pipe where it was set in such manner as that it prevented any movement of fluids across the packer.

Subscribed and sworn to before me on the 18 day of April, 19 62.

Spencer Sedward
Notary Public in and for the County
of Lea, New Mexico
