Gentlemen:

Downhole commingling was authorized for your Southland Royalty "A" No. 5 located in Unit Q of Section 4, T-21-S, R-37-E, under DHC Order 14. This order, as you know, authorized downhole commingling of Blinebry oil and Drinkard oil.

In November of 1972, you re-entered this well and perforated additional Blinebry intervals. As a result of this work, you have in effect created a Blinebry gas well, and therefore rescinds the commingling order.

This well is now classified as a Blinebry gas well, and you are directed to shut in the well until you have conformed with the provisions of Order No. R-1670 pertaining to the Blinebry Gas Pool.

Upon shutting in this well, it will be necessary that you isolate the Blinebry from the Drinkard so that there will be no movement of fluids from one zone to the other.

Yours very truly,

OIL CONSERVATION COMMISSION

Gentlemen:

Downhole commingling was authorized for your Southland County "A" No. 2 located in Unit 9 of Section 4, T-21-S, R-37-E, under DHC Order 1A. This order, as you know, authorized downhole commingling of Blinberry oil and Brinkard oil.

In November of 1972, you re-entered this well and perforated additional Blinberry intervals. As a result of this work, you have in effect created a Blinberry gas well, and therefore rescinded the commingling order.

This well is now classified as a Blinberry gas well, and you are directed to shut in the well until you have conformed with the provisions of Order No. R-1670 pertaining to the Blinberry Gas Pool.

Upon shuttling in this well, it will be necessary that you isolate the Blinberry from the Brinkard so that there will be no movement of fluids from one zone to the other.

Yours very truly,

OIL CONSERVATION COMMISSION

Joe J. Hamay
