Re: Northeast Drinkard Unit #201-I
Sec. 4, T21S, R37E
North Eunice Blinebry Tubb-Drinkard O&G Pool

Gentlemen:

Your intention to squeeze current perforations in the above-referenced well and recompleting the well through new perforations has been approved.

However, according to Rule 6 R-8539 this well can only be completed as a Blinbry gas well since there is not a Tubb Gas proration unit offsetting this acreage. The Tubb zone will have to be completed in the oil interval.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I
