Attention: Mr. Paul G. White

Gentlemen:

Effective February 1, 1965 your Gulf Hill No. 1 located in Unit R of Section 4, T-21-S, R-37-E is reclassified as an oil well in the Blinbry Oil Pool. This reclassification is necessitated by your recently submitted gas-liquid ratio test, which indicates the well to be producing below 32,000 cubic feet per barrel and producing fluids of less than 51° gravity.

An oil allowable will be assigned this well based on the submitted gas-liquid ratio test, and if there are any changes in transporter, you are requested to file Commission Form C-104 (Revised 1/1/65) so designating.

Yours very truly,

OIL CONSERVATION COMMISSION
