DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Our Notice of Intention to Brill the above well, approved 10-17-56, indicated an estimated TO of 6450' and a completion in the Tubb formation. A TO of 6480' was reached, and the Tubb found to be unproductive. It is intended to plug back to 6300', and complete this well in the Terry Blinebry Pool.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced. Continental Oil Company Company ___ Box 68 Address ... Eunice, New Mexico Title District Superintendent
