Re: Change of Proration Unit
in the SW/4-NW/4 of Sec.
7, T-21-S, R-37-E, Lea
County, New Mexico

Gentlemen:

The Alexander No. 1-E in Section 7, T-21-S, R-37-E, Lea County, New Mexico, was drilled and completed on 11/11/54, as a Eumont gas well. The S/2-NW/4 and the E/2-SW/4 were communitized into a non-standard proration unit. The well has been produced with this 160 acre dedication since that time.

The Alexander No.1 well has not produced any oil or gas since February, 1985. Therefore, it is now requested that the non-standard proration unit be reduced in size to include only the SW/4-NW/4 of Section 7, T-21-S, R-37-E. A copy of a C-102 (well location and acreage dedication plat) is enclosed to show the location of the Alexander No. 1 well and to indicate the acreage to be dedicated to the 40 acre proration unit.

Also enclosed is a lease plat showing the offset operators. These operators have been notified of this application by certified mail, a copy of which is enclosed.

Sincerely,

E. F. Lawson, Jr.
