Re: Well Producing in Excess of Assigned Allowable
Southland Royalty "A" #1-G Sec. 9, T21S, R37E
Blinebry O&G, Drinkard, and Tubb O&G Pools

Gentlemen:

According to your monthly operator's report, Form C-115, the above-referenced downhole commingled well produces in excess of it's assigned allowable in all pools. The reduced downhole commingled allowable is further curtailed due to a high GOR for this well.

The production from this well should be reduced to conform with the allowables as indicated in the oil proration schedule.

Blinebry O&G	3 BOPD
Drinkard O&G	3 BOPD
Tubb O&G	1 BOPD

If you have questions concerning this matter, please contact Evelyn Downs at (505) 393-6161.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I
