Re: Well Producing in Excess of Assigned Allowable  
Southland Royalty "A" #1-G Sec. 9, T21S, R37E

Gentlemen:

According to your monthly operator's report the above-referenced downhole commingled Blinebry/Tubb/Drinkard well is producing in excess of its assigned allowable in all zones. The allowable has been reduced due to a high GOR.

The production from this well should be reduced to conform with the assigned allowables as indicated in the oil proration schedule.

If you have any questions concerning this, please contact Evelyn Downs at (505) 393-6161.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton  
Supervisor, District I
