

NEW MEXICO OIL CONSERVATION COMMISSION

MISCELLANEOUS NOTICES

Submit this notice in TRIPLICATE to the District Office, Oil Conservation Commission, before the work specified is to begin. A copy will be returned to the sender on which will be given the approval, with any modifications considered advisable, or the rejection by the Commission or agent, of the plan submitted. The plan as approved should be followed, and work should not begin until approval is obtained. See additional instructions in the Rules and Regulations of the Commission.

OIL CONSERVATION COMMISSION
SANTA FE, NEW MEXICO

Hobbs, New Mexico
(Place)

March 27, 1957
(Date)

Gentlemen:

Following is a Notice of Intention to do certain work as described below at the

Aztec Oil & Gas Co. Dauron Well No. 2 in A
(Company or Operator)
NE 1/4 NE 1/4 of Sec. 10, T. 21, R. 37, NMPM, Drinkard Pool
(40-acre Subdivision)
Lea County.

FULL DETAILS OF PROPOSED PLAN OF WORK
(FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS)

This well is currently dually completed with oil production from the Drinkard formation and gas production from the Blinbry formation. It is proposed to temporarily abandon this well in the Drinkard zone. Permanent abandonment will be effected at such time that it is feasible to pull tubing and set a bridge plug or squeeze-cement the Drinkard zone.

The Drinkard zone has been produced by a gas lift installation utilizing 3/4" tubing within 2" tubing. The Drinkard zone is now non-productive, due to mechanical failure of the 3/4" tubing and flow valves. To return this zone to production would require extensive fishing and possibly killing the Blinbry zone. The small production from the Drinkard zone does not justify the expenditure. There is no indication of communication between the two zones.

THE COMMISSION MUST BE NOTIFIED
EVERY 6 MONTHS ON FORM C-103
AS TO THE WELL STATUS AND YOUR
FUTURE PLANS FOR THIS WELL.
