OIL CONSERVATION COMMISSION
SANTA FE, NEW MEXICO

Hobbs, N.M.

Nov. 7, 1952

(Place)

(Date)

Gentlemen:

Following is a Notice of Intention to do certain work as described below at the **Dauron Lease**

Aztec Oil and Gas Co.
(Company or Operator)

Well No. **2** in (Unit)

NE $\frac{1}{4}$ **NE** $\frac{1}{4}$ of Sec. **10**, T. **21S**, R. **3/E**, NMPM, **North Drinkard** Pool
(40-acre Subdivision)
Lea County.

FULL DETAILS OF PROPOSED PLAN OF WORK
(FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS)

In accordance with Oil Conservation Commission Order # 209 we propose to **Dually complete** our **Dauron #2**, producing oil from the Drinkard through the tubing and gas from the annulus from the **Blinbry**. We propose to set a **Baker** production packer at 6510 with an Otis standing valve at 6507. We then propose to pressure test the packer and standing valve prior to perforating, to insure positive shut off between the two zones. We propose also to pressure test the tubing for leaks. We then propose to perforate the casing opposite the **Blinbry** from 5650-5705. After this has been done, we propose to acidize the **Blinbry** with approximately 4000 gal.

Approved **NOV 10 1952**, 19
Except as follows:

Approved
OIL CONSERVATION COMMISSION

By **Ray Yunkracy**
