Gentlemen:

We have received an amendment to Order DC-215 authorizing the production of oil from the Blinbry zone of your State 10 Well No. 2 located in Unit E of Section 10, T-21-S, R-37-E and an oil allowable is being assigned effective October 15, 1962.

We were advised by El Paso Natural Gas Company that this well was disconnected from their gathering system on August 13, 1962. Please file Form C-110 indicating the disposition of the casinghead gas. If the gas is being flared, it will be necessary that you either obtain a connection or a No-Flare Order prior to January 15, 1963.

Yours very truly,

OIL CONSERVATION COMMISSION
