Re: Lease Las Cruces 032096(b)

Gentlemen:

Receipt is acknowledged of ~~CORRECTED~~ "Notice of Intention to Drill" dated April 5, 1956, covering your well No. 10 Lockhart B-11 on the subject leasehold in the ~~SE 1/4~~ sec. 11, T. 21 S., R. 37 E., N.M.P.M., Terry-Blinbry Pool, Lea County, New Mexico.

Your proposed work is approved subject to compliance with the provisions of the "Oil and Gas Operating Regulations" revised May 25, 1942, copy of which will be furnished you on request, and subject to the following condition:

1. Drilling operations so authorized are subject to the attached sheet (revised March 1954) for general conditions of approval.

The approval granted herein is effective as of April 3, 1956, the date on which the original "Notice of Intention to Drill" was conditionally approved.

Very truly yours,

H. A. DePont
District Engineer

The elevation of the derrick floor above sea level is _____ ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

It is intended to drill a well with rotary tools at above location to an approximate TD of 6090'. Casing will be cemented in accordance with USGS standards and otherspecial requirements will be complied with.

The following casing pattern is planned: 10 3/4" OD set at 250' with 250 sacks of neat, cement to be circulated to surface; 7 5/8" OD casing to be set at 3150' with 1100 sacks cement. 5 1/2" OD production string to be set at approximately 6090' with approximately 900 sacks cement. Depth and number of sacks of cement are approximate. Exact amount of cement will be determined by caliper survey.

Approval to produce this well upon completion is also requested.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
