Re: Reclassification of Well  
Livingston #2-W  
Section 3, T21S, R37E  
Blinebry Oil and Gas Pool

Gentlemen:

Due to the recently submitted gas/oil ratio test for the above-referenced well, the well will be reclassified as a gas well in the Blinebry Oil and Gas Pool effective January 1, 1988, and the oil allowable cancelled that date.

If for some reason you feel this test does not reflect the proper classification of the well, please submit another test for our consideration by November 23, 1987.

If the well is to be reclassified from oil to gas, please submit the following by November 23, 1987:

- 1) C-102 indicating acreage dedicated to this gas well completion and NSP if applicable
- 2) C-104 if gas transporter changes due to reclassification
- 3) Advise if gas well gas is separately metered

Very truly yours,

OIL CONSERVATION DIVISION
