December 20, 1962

Subject: Application for a 40-Acre
Non-Standard Gas Proration Unit
Blinebry (Gas) Field
Lea County, New Mexico

New Mexico Oil Conservation Commission
P. O. Box 871
Santa Fe, New Mexico

Attention Mr. A. L. Porter, Jr., Secretary and Director

Gentlemen:

Please consider this application of Shell Oil Company for a 40-acre non-standard gas proration unit to be dedicated to Shell Livingston No. 11, Blinebry (Gas) Field, Lea County, New Mexico. As seen on the attached plat, this well is located 3300 feet FSL and 660 feet FWL of Section 3, T-21-S, R-37-E, Lea County, New Mexico.

Shell Livingston No. 11 was triple completed as a Blinebry (Oil), Drinkard (Oil) and Tubb (Oil) producer in January 1962. The Blinebry (Oil) production was reclassified as a Blinebry (Gas) well, effective January 1, 1962, on the basis of a recently submitted gas-oil ratio report which showed the well to be producing gas in excess of 32,000 cubic feet per barrel from the Blinebry.

Please advise if any other information is required.

Yours very truly,

R. L. Rankin
Division Production Manager

OIL CONSERVATION COMMISSION
HOBBS, NEW MEXICO

Dec. 13, 1962

Shell Oil Company
Box 1858
Roswell, New Mexico

Gentlemen:

Effective January 1, 1963 your Livingston No. 11 located in Unit M of Section 3, T-21-S, R-37-E is reclassified as a gas well in the Blinebry Gas Pool. This reclassification is necessitated by your recently submitted gas-oil ratio report which indicates the well to be producing in excess of 32,000 cubic feet per barrel.

A gas allowable will be assigned this well when you have complied with the provisions of Commission Order No. R-1670 which pertain to the Blinebry Gas Pool.

Yours very truly,

OIL CONSERVATION COMMISSION
