Re: Reclassification of  
Nolan No. 2-N, 11-21-37  
Tubb Gas Pool

Gentlemen:

Upon reviewing the records on file with this office the above named well has been reclassified as an oil well in an undesignated oil pool effective April 1, 1957.

However Form C-110 indicates that gas is being flared although through personal communication with personnel of your office it was indicated that a gas connection has been obtained; please verify. Further, it will be necessary to request cancellation of NSP Order No. 198 with our Santa Fe office.

Yours very truly,

OIL CONSERVATION COMMISSION

OIL CONSERVATION COMMISSION

HOBBS, NEW MEXICO

March 10, 1934

Mr. J. H. ...  
-51-10

Dear Sir:

Enclosed for you are two copies of a report on the oil resources of the Hobbs field. The report was prepared by the Hobbs field geologists and is a summary of the work done to date. It contains a description of the field, a list of the oil wells, and a summary of the oil production. The report is a valuable reference for the Hobbs field and is of interest to all concerned with the oil resources of the Hobbs field.

Very truly yours,

Director, Oil Conservation Commission

Enclosure

Very truly yours,  
J. H. ...
