DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

It is our intention to drill a well with rotary tools at the above location to a total depth of approximately 8230', or to a depth sufficient for completion in the Ellenburger horizon. All casing will be cemented in accordance with approved methods of the U. S. Geological Survey and any other special requirements will be complied with.

It is planned to use the following casing patterns: 10 3/4" casing to be set at approximately 250' and cemented with 250 sacks, cement to be circulated to surface; 7 5/8" casing to be set at approximately 3150' and cemented with 1,255 sacks, or sufficient cement to protect the salt section; 5 1/2" casing to be set at total depth and cemented with 545 sacks or the required amount as determined by Caliper survey, casing to be perforated opposite the pay zone.

Approval to produce this well upon completion is also requested.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

1. The first part of the document is a list of names and addresses of the members of the committee. The names are written in a cursive hand, and the addresses are given in a more formal, printed style. The list is organized in a columnar fashion, with names in the first column and addresses in the second.

2. The second part of the document is a letter or a report. It begins with a salutation, followed by a paragraph of text. The handwriting is consistent with the first part, suggesting it was written by the same person. The text appears to be a formal communication, possibly a report on the committee's activities or a letter to a superior.

3. The third part of the document is a list of names and addresses, similar to the first part. It is also organized in a columnar fashion. The handwriting is consistent with the other parts of the document.

4. The fourth part of the document is a letter or a report, similar to the second part. It begins with a salutation, followed by a paragraph of text. The handwriting is consistent with the other parts of the document.

5. The fifth part of the document is a list of names and addresses, similar to the first and third parts. It is also organized in a columnar fashion. The handwriting is consistent with the other parts of the document.
