17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

This form filed to report the Blinebry and Tubb zones are being commingled down hole (via a leak in the Tubb or long tubing string) as authorized by NMOCC Order No. R-5481, effective June 28, 1977. All oil and gas produced only via the Tubb tubing string.

Supplementary data:

- March 1964: Initial completion of well as Blinebry Oil over Tubb Gas parallel tubing strings dual.
- January 1, 1972: Blinebry zone reclassified from oil to gas due to excessive GOR. Blinebry zone shut in on and since January 1, 1972. The 40 acres dedicated to the Blinebry zone transferred to form 80-acre non-standard unit in Blinebry Gas Pool for the east offsetting Eubanks No. 3 (NSP 859).

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
